

# Odor neutralizer for home and industry

## M O L E C U L A R   n e u t r a l i z a t i o n   o f   o d o r m o l e c u l e s

The technology originating from Japan has been further developed by our scientists.

The formulations developed by SolNova are optimally adjusted to the specific smells with a finely tuned combination of active ingredients.

The molecules provoking a bad smell sensation are chemically bound by cage molecules and converted in inert substances.

- The product have been successfully used for several years to the fullest satisfaction of our customers
- Specific formulations for neutralization of tobacco smell, kitchen odors, for bathrooms, garden litter containers, personal use and for pets are available. Can be used on textiles, furnitures, carpets, curtains etc.
- particularly suitable in combination with odorizers
- proven application fields: **private home, gyms, restaurants, hotels**

**We solve all odor problems! Contact us!**

Packaging Sizes and prices on request!
