Insect Repellent Eucalyptus

Made of Eucalyptus Extracts

Modern and well– balanced formulations based on Eucalyptus extracts are used as active ingredients for optimal protection

- Our state-of-the-art, well– balanced formulations are the result of year long studies.
- Proven and independently confirmed protection from biting insects of more than six hours after one single application
- Very effective, particularly against the malaria carrying anopheles fly, but also against gnats and all othe mosquitos
- suitable for mosquito protection in the tropics
- with nourishing additives
- gives a refreshing feeling
