

Flea, Tick and Mite Drops

Based on Natural Vegetable Oil Derivatives

The highly effective product is based on components of vegetable oils.

As active substances coconut oil and fruit acids, natural oils and their esters are used.

- highly effective against fleas, ticks and mites
- eliminates parasites and protects from re-infestation
- easy to use
- natural ingredients
- biologically degradable

The product is suitable for dogs, cats and all other house pets. The parasites are eliminated only a few hours after application.
